

CarMates

Nurturing passions, one
carpool at a time.

CARPOOL!

“Ability is of little account without opportunity.”

– Lucille Ball

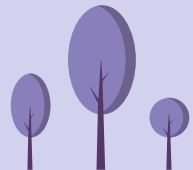

CARPOOL

1

Problem

Identifying the problem

WHAT: Transportation is an obstacle for students to attend after school activities

WHO: Primarily affects students who:

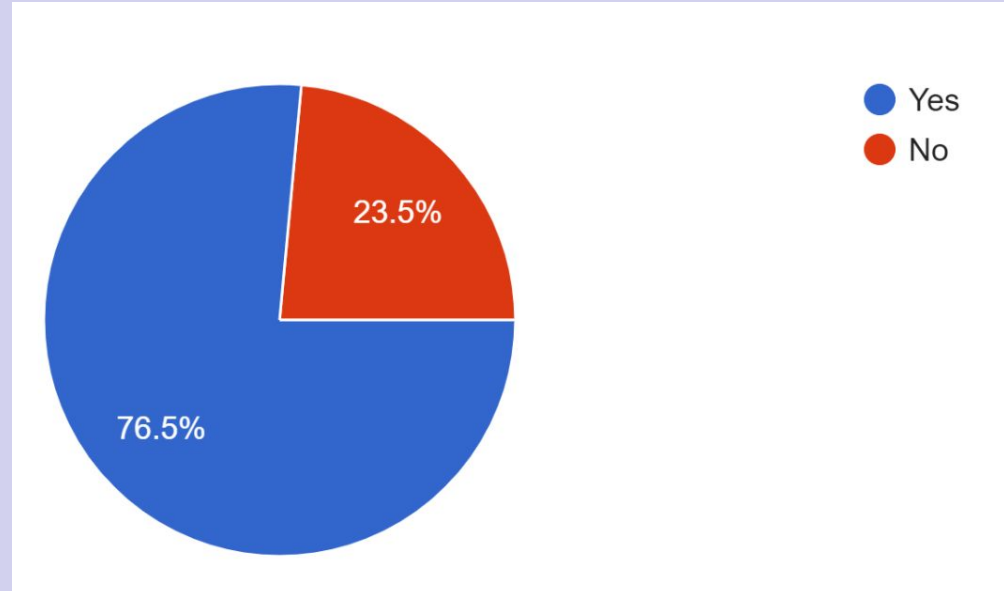

- Parents work full time
- Live in single parent households
- Live in low-income communities
- Do not own a car

Fun After-School Activities

Verifying the Problem

Do you skip meetings for after school activities because you do not have a ride?

*Data is from a poll we ran in which students from all across Wake County responded

*Data Size of around **300** students

Research Findings

"45 percent of students say they would participate in **more** school activities if they had the transportation **necessary** to do so."

(BCAT News)

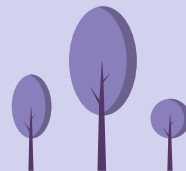

CARPOOL

2

Solving the Problem

Characteristics of Solution

Carpool groups **allow** multiple students to ride together:

Saving:

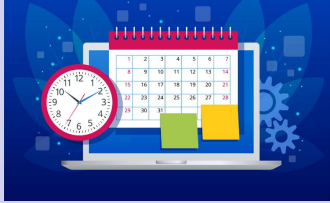

- Money
- Time

Creating:

- Opportunities

Our App

Events

CARPOOL

3

**How our app
works**

Qualities of Carmates

Simple UI

Easy Navigation

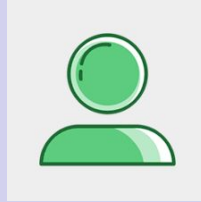

Data Enclosure

Passwords are secured through Google Firebase

User-to-User Connection

Secure messaging through user's own phones

User Safety

Only paired with students of the same school for the safety of the students

API – Driving Directions

What?

- Fast, Powerful API
- Distance Timing
- Other options available on Google Maps

How did we use it?

- Shows distance between user and host

4

Our Next Steps

CARPOOL

TOKENS

System:

- 3 tokens at creation
- Join carpool = 1 token used
- Host carpool = Gain 1 token per person in carpool

Benefits:

- Incentivizes **more** hosted carpool groups
- Helps community

Expanding Our

Reach

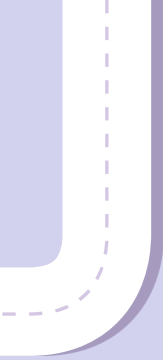

- Events at an **outside** of school location
- Everyday Carpool

Security

- Requires student ID
 - Log in using student portal
